Up to 20% generation gain from the rear-side

The grid line transparent back sheet increases the back reflection, and the power generation gain increases with the back light

More than 25% module weight lighter

Compared with the dual glass module, the weight is reduced by 25%, which is easy to install and save the cost of BOS

Higher generation efficiency and stability

Low current, low hotspot and better low-irradiance performance, more stable power generation

Longer power output life span

Anti PID, low acetic acid concentration, ensure the module linear power output for 30 years

Strong environmental adaptability

Certified by Dust-Sand, Salt-Mist, Ammonia etc. weather resistance tests

Select Grade A crystalline silicon solar cells

Grade A crystalline silicon solar cells make high-power output with cost-effective
